

Upper Dublin Township Curb and Sidewalk Replacement Program Information for 2012

Below is a list of concrete contractors who pulled permits in 2011 to do concrete work on residential properties. You can use this list as a starting point to acquire prices. You can also use any other contractor of your choice. The Public Works staff needs to meet with your contractor prior to the start of work to discuss the work limits, inspection and permit requirements, and quality standards that are expected.

**The Township does not endorse any of these contractors
or guarantee the quality of work that they provide.
We are merely providing this list for your convenience.**

Tony's Services	22 Fitzwatertown Road, Willow Grove, PA 19090	215-657-0860

The Township bid is subject to the PA Prevailing Wage Act and as such is required to hire contractors who pay their employees in accordance with this Act. We have found that this may result in considerably higher prices than our residents have paid by retaining their own contractors. An approach that has worked very well for our residents is to get together with their neighbors and select a block captain who can negotiate with the different contractors to do all the work on a specific block. We encourage all residents to consider this option as it should result in lower prices than we may receive through our competitive bidding process.
